Sub D7  
92. The software of claim 91 wherein the instructions for manipulating the gyroscopic element to provide a sensation to the player include instructions that consider at least in part input received from the user.

93. The software of claim 91 further comprising instructions for controlling the action of the electronic game based at least in part on the received input, the sensation provided to the player, or both.--

### REMARKS

Claims 20-93 are now pending with claims 20, 49, 50, 70, 80 and 83 being independent. Claims 1-19 have been cancelled without prejudice or disclaimer. New claims 20-93 find support in the specification, drawings and/or claims as originally filed.

The Title, Abstract and specification have been amended. No new matter has been added.

The Examiner is reminded that all claims were allowed in the parent application, Serial No. 08/977,806, now U.S. Patent No. 6,162,123.

Favorable consideration is requested. The Examiner is invited to contact the undersigned to schedule a personal interview and/or if any questions or concerns arise.

Respectfully submitted,

Date: January 2, 2001
